CONNECTED HEAT PRESSES TC SMART SERIES

FEATURES

Digital controller

Large workspace

Low hysteresis

Variable contact pressure

Automatically opening

Safe working

Exact temperature distribution

Exchangeable base plates

Bluetooth-Interface

Secabo Smart Transfer App

CONNECTED HEAT PRESSES TC SMART SERIES

With its new TC SMART heat presses, Secabo introduces a world's first to the market. The latest generation of the well-known knee lever heat presses features a new intelligent design and construction. Furthermore, the SMART models are equipped with new electronics that were developed on the basis of Secabo's extensive industry know-how. The controller for the automatically opening heat presses now comes equipped with a Bluetooth interface allowing for operation via the free transfer app Secabo SMART Transfers. In addition to handling the control function, the app also features the largest data-base with appropriate transfer parameter combinations for textiles and transfer media currently available on the market. It allows the customer to choose the respective type of fabric as well as the desired transfer medium and automatically receive the appropriate temperature, time and pressure settings.

It also comes with additional features, such as a adding time for placement of cover foil or silicone mat, as well as numerous other useful applications. The TC5 SMART and TC7 SMART models are available with a work surface of 38cm×38cm and 40cm×50cm respectively. Furthermore, the TCC SMART cap press is also available. All SMART heat presses are optimized for professional application of common heat transfer processes. All models feature a modular design, optionally allowing for quick and easy equipping with removable plates in various formats, with quick-change system and a slide extension (does not apply to TCC SMART).

SECABO SMART TRANSFER APP

Download on the
App Store

Google Play

AUTOMATICALLY OPENING

The press automatically
opens after the set time
has elapsed.

REPLACEABLE BASIC ELEMENTS

Basic elements in four different
sizes are optionally available.
These are easy to swap.

DIGITAL CONTROLLER

Duration and temperature
can easily be adjusted and
monitored using the digital
controller.

VARIABLE WORK PRESSURE

The work pressure is easy
to adjust - in each case
matching the transfer
object and procedure.

EXACT TEMPERATURE DISTRIBUTION

The high-quality heat plate ensures an
exact temperature distribution over the
entire heating surface.

SECABO TCC SMART CAP PRESS

With the new cap press TCC SMART, Secabo gives way to innovation and consequently further improves performance in the finishing of baseball caps, hats and similar products. The controller of the TCC SMART is equipped with a Bluetooth interface that allows for controlling the press via the free Secabo SMART Transfer app, while also providing access to a comprehensive function database. This allows users to: Simply enter the type of fabric and the transfer material and immediately retrieve the matching combinations of temperature, time and pressure. Additional features, such as the calculation of heat-up times and warning functions, make the app a valuable assistant for all common heat transfer methods. The contact pressure of the new heat press for caps, Secabo TCC SMART, is set via a handwheel at the lower side of the easily replaceable base elements. A loaded cap is tightly fixed from below by means of a bracket.

The automatically opening TCC SMART features a large opening angle as well as a button for manual opening prior to the preset time running out. It is suitable for professional use of all common heat transfer methods, including flock and flex films, sublimation, transfer, Ink-Jet-Flex and more.

TECHNICAL DATA

TCC SMART

Working area size	15cm × 8cm
Max. folding angle	35°
Max. temperature	225°C.
Max. preset time	999s
Power supply	AC voltage 230V / 50Hz - 60Hz, 1.0kW
Environment	+5°C - +35°C / 30% - 70% relative humidity
Dimensions	24cm × 64cm × 53cm
Net weight	15 kg
Items included	Heat press, base element 7.6cm × 14.6cm, power cable

BASE ELEMENTS FOR CAP PRESS TCC SMART

Base elements in various formats are available for the Secabo TCC SMART cap press. The elements can be swapped in just a few steps and allow for ideal and careful pressing of caps and hats – depending on the size and format of the transfer objects. Available formats: 7cm × 16.5cm, 7.6cm × 14.6cm, 10.2cm × 16.5cm, 10.2cm × 20.3cm.
